Solutions that work for you

WE PROVIDE CLIENTS WITH EFFICIENT AND COST EFFECTIVE RESULTS

At AME Design Group, Inc., we aspire to the highest ethical standards while exceeding our clients' expectations in every business aspect. Our results are efficient, cost-effective and thorough. We work diligently to share and provide clear and accurate information and results. Consequently, our clients experience peace of mind and total confidence in our delivered services.

Our highly skilled and seasoned principals and personnel possess extensive experience in Mechanical, Plumbing and Electrical engineering designs. We use state-of-the-art technology and applications to exceed your expectations, thus delivering competent and cost effective results in a timely manner.

flexible solutions for your design needs

OUR PROFESSIONAL CONSULTING SERVICES PROVIDE UNPARALLELED RESULTS

WHY AME DESIGN GROUP

We strive for client satisfaction, value addition and unparalleled customer service. Our work is entirely process driven and result oriented. We aspire to constantly improve and update our process and systems to stay abreast of modern technology and added value. Our client-friendly engineering services, flexibility and efficient project management have contributed to our impeccable reputation.

EXPERT ENGINEERING SERVICES

Our services include:

- System design and engineering for new and retrofit construction
- Value Engineering
- Engineering studies
- Systems evaluation and operation verification
- Start-up observation and commissioning
- Construction cost analysis
- Energy consumption analysis
- Heating and Cooling Load analysis
- Title 24 compliance

APPLICATION DESIGN

Every application design project is unique. Every organization has its own distinctive requirements. With this in mind, AME Design Group undertakes every project with a 'clean sheet of paper' approach

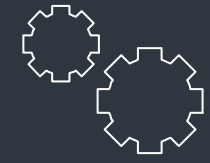

From the initial scoping of the project to completion, AME Design Group has every area encompassed.

Our team of fully trained, expert engineers and project managers provides a point of contact throughout the project to ensure accountability.

Our Design Services provide:

- Highly skilled principals and personnel
- Total Quality Design
- Continuous value creation
- Flexibility
- Integrity
- Timely project completion
- Unparalleled results
- Competitive fees

DESIGN SOLUTIONS

AME Design Group, Inc. possesses experience and state of the art compliance tools needed to find the most cost effective methods tailored to meet your specific needs and design requirements.

INNOVATIVE SOLUTIONS

We apply the most up-to-date technology in providing true digital solutions. Clients may submit and request work completed via the internet.

This reduces costs and eliminates bulky blueprints. Our proficiency with AutoCAD also allows us, if requested, to provide compliance documentation right on your plans, thus significantly reducing paperwork and time.
